Introduction

- Relevance to professional mission and values
  - Mission: advancing the fulfillment of all people in context of social justice.
  - Expanding to consider whole person in relation with all people and all beings.
  - Appreciation for diversity: spiritual diversity and intersection with other forms of diversity (e.g. sexual orientation, culture).
  - Value openness: advocacy in genuine dialogue.
  - Commitment to NASW Code of Ethics and CSWE/IASSW principles.

**Students’ View:** Mandala of Spiritual Diversity in SW
Symbolism of the Class Mandala

• Each spoke represents a unique person’s spiritual perspective.
• Connection in the circle shows mutual acceptance and support.
• Central open space is our common point.
• 8 Qualities around the center: knowledge, reverence, acceptance, harmony, understanding, compassion, diversity, empathy.
Definitions of Spirituality and Religion

• For use in professional discourse, adaptable and dispensable depending on context.

• Based on contributions from social work scholars of diverse religious and nonreligious spiritual perspectives along with work in allied fields.
SPIRITUALITY (as aspect)

- The human search for a sense of meaning, purpose, and morally fulfilling relations;

- With one’s self, other people, the universe, and the Ground of Being (ultimacy), however understood—in theistic, nontheistic, animistic, and other ways;

- Involving centrally important orienting beliefs, values, and practices;

- That may express in religious and/or nonreligious ways;

- And may be considered private and/or shared with others.
Religion

- Institutionalized patterns of centrally important orienting beliefs, values, and practices related to spirituality (and other things);
- Shared by a community;
- Developed and transmitted over time;
- (Not necessarily bureaucratic)
- Faith is a related concept, esp. in theistic religions, emphasizing assent to and confidence in religious propositions and experience of relationship with a personal God and/or sacred beings.

Spirituality In a Holistic View:

• Aspect: Integrity & Connection
• Center: Immanence
• Wholeness: Transcendence
Are Spirituality and Religion all Good? Boundary Violations

- War
- Genocide
- Moralistic judgmentalism
- Religious Imperialism
- Ideological Authoritarianism of Absolute Truth

Buchenwald Concentration Camp, Weimar, Germany: Never again!
• Spiritual narcissism, materialism and grandiosity

Social worker as self-appointed spiritual expert:
• “I know what is right and real”
• “What works for me is good for everyone”
• Spiritual tyranny and genocide

Social Worker as Agent of Spiritual Assimilation, Proselytization, Or Destruction
• Social development through forced conversion
Good News:

Recent Trends to Transcend Boundaries through Spirituality in Social Work
Historical Trends: 1990s

- Rapid increase of research and teaching on spiritual diversity; rise of faith-based initiatives.
- Transpersonal and ecophilosophical views increase in SW.
- Religious diversity in SW increases.
- NASW and CSWE acknowledge religion and spirituality.
- International networking.
Historical Trends: 2000s

- Previous trends escalate, including interdisciplinary research.
- Development of global (not just nation-centered) perspectives on spirituality and SW.
- Human/Nature connectedness in SW increases somewhat.
- E.g. Canadian/US Collaborations
It is now possible to access resources from most spiritual perspectives around the world in North America and most anywhere else.

- Although most No. Americans affiliate with Protestant or Catholic denominations of Christianity, hundreds of different religions and world views are present, including no religious affiliation.
- Social workers must be able to respond to this diversity respectfully and knowledgably.
Amazing Opportunities

- Alternative and complementary therapies (e.g. wellness with illness)
- Interreligious dialogue and collaboration for spiritual growth (e.g. Catholic/Buddhist)
- Secular/Religious partnerships (e.g. refugee resettlement)
- Human nature as Human/Nature (e.g. deep ecological awareness)
Examples of USA NASW Practitioners’ Opinions about using s/r

• **Appropriate Helping Activities (80% or more agree)**
  - Consider s/r support systems as helpful
  - Use nonsectarian spiritual concepts
  - Discuss role of s/r in relationships
  - S/r reading
  - Discuss ways s/r support systems are harmful
  - Reflect on beliefs about after death
  - Help reflect on meaning and purpose of situation
  - Reflective journaling
  - Refer to s/r support systems
  - Help develop rituals

-- Canda & Furman, 1999
Continued

- **Appropriate to Raise Topic of Spirituality by Topic (50% or more agree)**
- **Religion**: terminal illness, foster parenting, natural disaster, bereavement)
- **Spirituality**: terminal illness, substance abuse, foster parenting, sexual abuse, partner violence, natural disaster, bereavement, chronic mental disorder, job loss, family relations difficulty, criminal justice
Key Concepts in Transpersonal Theories

• **Transpersonal Experiences, e.g.**

• **Connections with ancestors, spirit powers of nature, angels and demons.**

• **Near death experiences.**

• ** Extrasensory perceptions.**

• **Subtle energies, e.g. chi, kundalini.**

Maslow’s peak, nadir, and plateau experiences

- **Peak**: rising above ordinary body/ego limit.
- **Nadir**: falling into a pit of crisis.
- **Plateau**: integrating growth into life; subtle yet deep insights.
Wilber’s Pre/Trans Egoic Distinctions

- **Pre-egoic phase**: infancy and early childhood sense of fusion with significant others and fantasy.
- **Egoic phase**: adolescence and adulthood sense of bounded body/ego and individuated self.
- **Trans-egoic phase**: includes and transcends earlier phases in expanded consciousness and identity; open insights for arrangements of social justice for all beings.

“The willows which make the frame of the sweat lodge are set up in such a way that they mark the four corners of the universe; thus, the whole lodge is the universe in an image, and the two-legged, four-legged, and winged peoples, and all things of the world are contained within it, for all peoples and things too must be purified before they can send a voice to *Wakan-Tanka.*”

Examples of Using of Inner and Outer Spiritual Supports

- Holistic bio-psycho-social-spiritual assessment
- Religious community mutual supports
- Prayer, meditation, dream reflection, spiritual journaling, subtle energy work, ritual for worker and client
- Spiritually based helpers and healers, including clergy, monks, shamans, etc.
- Complementary and alternative therapies
- Spiritually sensitive HSO culture
- Spiritually based peaceful social change movements (e.g. Gandhi, King)
- Religiously based ngos and social services (so-called faith based)
- Transcultural collaborations for planetary well-being
E.g., Gandhian Principles for Social Activism (Walz, Sharma, & Birnbaum, 1990)

- True Self realization as purpose of existence and social action.
- Local, global, and cosmic unity.
- Inherent dignity of all things.
- Pursuit of Truth (satyagraha) through peaceful resistance and proaction.
- Seeking the welfare of all (sarvodaya), starting with the oppressed.
- Starting with locally relevant action (swadeshi) in context of global awareness.
